

Dear FCC Commissioners & Staff:

I am writing to you regarding your reconsideration of the rules that require telephone companies to provide ISPs access to the public switched phone network.

If you remove fair access to the public switched phone network you will:

- a) Limit consumer choice in the local markets
- b) Which will cause consumer pricing to rise
- c) Concentrate even more market power in the monopolies that control our phone network

Commissioners, it is imperative that you continue to protect the ISPs' access to the public telephone networks, thereby protecting the rights of millions of consumers like me.

Sincerely,

Roger W Finn
